

شركة فنون الرافدين للمقاولات والتجارة العامة المحدودة
Funoon Al-Rafidain General Contracting And Trading Co.

PROFILE

For over 12 years, F Co. Group has been a cornerstone of civil works, oilfield services, and other general contracting and trading services in Iraq and U.A.E As one of the largest general contractors in Iraq, we have been a consistent player in the nation's growth. Our success has made it possible to expand our operations to the Iraq and beyond. In a period of ten years, we have gained an excellent reputation throughout Iraq and now as we go due to our highly qualified and customer-focused management, outstanding services, our ability to meet our clients' requirement and manage any load of work. Since its inception, the company has delivered beyond expectations, satisfying not only clients and contractors, but also our employees, I believe that the real values of our company are our commitment to its vision, mission, and our particular focus towards the Health Safety and Environment. On behalf of the board members, I would like to thank our clients, business partners, and all employees for their support and effort to build this legacy of the future.

Eng. Omar Al-Shaikhli

OUR FIVE KEY VALUES ARE:
- SAFETY - WE RECOGNIZE THE PARAMOUNT IMPORTANCE OF ENSURING A HEALTHY, SAFE AND ACCIDENT FREE WORKPLACE FOR ALL OUR EMPLOYEES, CONTRACTORS, AND VISITORS.
 - QUALITY - WE PROVIDE THE TECHNICAL EXPERTISE TO DELIVER EXCELLENCE IN OIL FIELDS, CIVIL WORKS, LIFE SUPPORT, LOGISTICS, AND MACHINERY.
 - SUSTAINABILITY - BY UNDERTAKING ALL PROJECTS IN A MANNER THAT ENSURES THE PROTECTION OF THE NATURAL AND ARTIFICIAL ENVIRONMENT, WE DEMONSTRATE OUR COMMITMENT TO BEING AN ETHICAL AND ENVIRONMENTALLY CONSCIOUS CONTRACTING AND GENERAL TRADING COMPANY.
 - INNOVATION - IN APPLYING INGENUITY, INNOVATION, AND ADAPTABILITY, WE ENSURE OUR CLIENTS' NEEDS ARE MET AND THEIR EXPECTATIONS EXCEEDED.
 - PEOPLE - BY CREATING A WORKPLACE OF SHARED RESPONSIBILITY, OUR EMPLOYEES ARE RECOGNIZED FOR THEIR INITIATIVE, PROFESSIONALISM, TEAMWORK, AND THE TRUST THEY ENGENDER IN OUR CLIENTS, SUBCONTRACTORS, AND THE COMMUNITY.

2003

The Start

We started the contracting and construction work in Iraq with a lot of attitude and inherited experience

2005

The Grow.

Our company awarded the first project of infrastructure and steel structure with international companies with AMEC & Washington group and it was a challenge because of the security and safety measures in Iraq.

2007

The Challenge.

The company got several big projects with a total amount of 38 million dollars in several provinces in Iraq simultaneously and the success was a challenge because of the lack in security and safety reasons in Iraq.

2009

Emirates

F.Co. Opened a branch in UAE and started a business in there

Oil Field Services.

F.Co. Entered the work of oil field service due to the buildup of experience & awarded a master service agreement with Baker Hughes and also worked with international companies

Life Support.

F.Co. Awarded a life support project with URS and RMS inside the international zone in Baghdad after that in 2016 we provided life support in Halfaya Petrochemical with Oilserv and still ongoing

New branch in USA.

Our company opened business in USA and at this point and on we have multi projects with big staff to build houses and compounds in California & Arizona

Our contribution

Our company wanted to contribute back to Iraq by participating in a non-profit project and one of them is Alaq Baghdad

HISTORY

AWARDS

F.Co. Has been granted ISO 9001 - 18001 - 14001 certification. This means that the company has implemented a quality management system in which all processes and procedures have been carefully designed and quality-tested according to international standards.

1

Certificate in safety from corps of engineers on 2005

2

Certificate of appreciation from U.S Airforce on 2011

3

Acquired ISO Certificate on 2013

4

Awarded Certificate in life support and catering on 2018

5

Certificate of steel structure on 2018

6

Awarded Certificate in life support & catering on 2018

7

Certificate of appreciation from Iraqi government for a nonprofit project in 2019

ZUBAIR OILFIELD PROJECT EPC OF WATER INJECTION SYSTEM.

This work shall consist of precast reinforced concrete piles, to receive paved area (foundation) in accordance with the requirements.

BAKER HUGHES

PROJECTS

SKIDS, DIESEL
TANKS, BASKETS
& RACKS

RIG SITE PREPARATION

Our Company Have had a lot of Projects with Baker Hughes in southern Iraq and also signed a master service agreement contract for Rig site Preparation

Although The project time line was tight and with penalties applied if we cross over the time limit , but we did finish on the time schedule , also it worth's mentioning that we faced a bad weather and heavy rain showers which forced us to stop the work for 5 days but we covered the lost time by working for night shifts and working through the religious holy days that also came along the same time

F.Co. Group have supplied Baker Hughes company with different types of VSD Skids 520/650/1000 and also a variety types of Diesel Tanks which consist of:
50000/30000 / 20000 liters with specification plate 6mm and welding Permeability and painted with read oxide two coat and test by hydrologic test and X-Ray test and load test.

F.Co. Group has also supplied and manufactured over 100 Skids to NOVOMET

NOVOMET NEW MAN CAMP IN RUMAILA

F.Co. GROUP proudly to design and handle the construction of NOVOMET Camp. The NOVOMET camp is located at BASRA/RUMAILA with consisted of 80 single client rooms and a mixture of double and quad units for the O&M contractor. Total occupancy of the cam is 200 persons. F.Co. GROUP installed all the utility and infrastructure system including power generations fuel storage, water storage/supply, sewer, IT/ Communications, security and access control.

NOVOMET CAMP

FLARE LINE BLOCKS

ONE TON CONCRETE BLOCKS
an order from NPS had to be provided
in one week

FLARE LINE CON- CRETE BLOCKS

a project to provide Concrete Block 1 Ton for pkg at NPS Base Basra Iraq

Our dedicated and creative team works closely alongside to ensure that we can delivering a high quality professional and on-time service.

JOB DESCRIPTION

- Supply materials, tools and ma to clean, leveling the area under the concrete foundation.
- Supply materials, tools and ma to do surveying setting out line and the level for and coordinates for the slab.
- Supply materials, tools and ma to excavate the foundation of the column and tie beams and compaction work.
- Supply materials, tools and ma cast sulphate resistant reinforced concrete with compressive strength 30Mpa for the foundation of columns and tie beams with thickness 70 cm and ground beams with thickness 70cm and ground beams with thickness 30 cm.
- Supply materials, tools and ma to backfill the area above foundation with sub base with good compaction.
- Supply materials, tools and ma to install the sewage system pipes by using UPVC pipes more-over external manhole with dim 50*500 cm and water system pipes (hot and cold) by using PVC pipes and test the both.
- Supply materials, tool and ma to sulphate resistant reinforced concrete with compressive strength 25Mpa under the tile.
- Supply materials, tools and ma construct the steel structure with area 242 m2 250*250*12 mm H beam for columns 200*100*9 mm I beam for roof beams 75*37*20 mm Hollow pipe between the of beam sand sandwich panels sandwich panels 10cm thickness base plate 400*400*14 mm anchor bolts 4 O 22 mm & long 500 mm for each supports gutter.
- Supply materials, tools and ma to cast sulphate resistant reinforced concrete with compressive strength 25 MPA for the walk ways around the building.
- Supply materials, tools and ma build walls with concrete blocks with dim 20*20*40 cm.
- Supply materials, tools for electrical, wiring, lighting job, fire alarm system and wiring for industrial machine.

RESTAURANT

& MESS HALL

CONSTRUCTION OF RESTAURANT AND MESS HALL FOR NPS YARD

The construction of Restaurant and Mess Hall began last August 2017 and finished in November 2017 at NPS Base Basra Iraq .

Our dedicated and creative team works closely alongside to ensure that we can delivering a high quality professional and on-time service.

Supply and install ceramic tiles walls within 20cm*50cm, type Spanish/omani

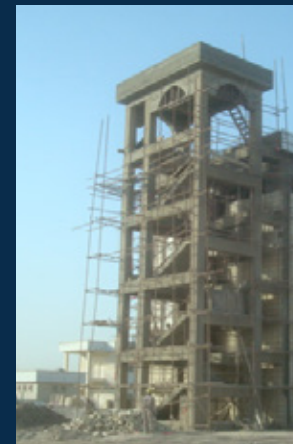

GDCT

GENERAL DIRECTORATE OF COUNTER INTELLIGENCE.

GDCT is a 1st class compound which is held for the Ministry of Interior In Baghdad Baladiyat and contains buildings for offices, accommodation, Health facilities and canteens.

The project of general directorate of counter intelligence was awarded to our company by the corps of engineers and it was a type of project that have very large details with lots of stages to go through

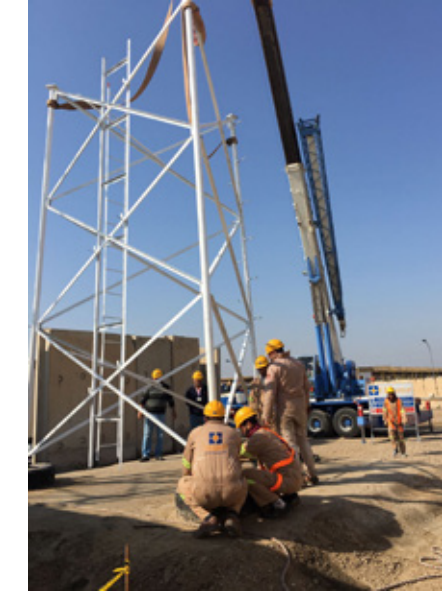

UNAMI TOWER

CONSTRUCTION AND INSTALLATION OF COMMUNICATIONS TOWER.

Insolation/erection of 120feet rohn tower provided by UNAMI. Line item includes, Installation of platforms, lighting arrestors including Grounding, painting, anticollision light, cable trays, cable bridges etc.

And dismantle the old tower, section by section, pack and store in the designated area Within the UNAMI compound.

WORK ON TIME

OILFIELD SERVICES

F.Co. Group is proud of its ability and expertise in design, construction, and maintenance of civil works like roads & highways, buildings, site preparation and pipeline installments. Our civil engineers have the ability and the experience needed to perform the civil work needed for the construction of all power plants such as machines foundations, Industrial buildings switch yard foundations, cable trenches, steel structures, concrete water tanks, sheds, and housing..

Our expertise isn't limited to labor and workmanship, our staff harbors specialty in planning and scheduling of infrastructure projects, Project plans are developed for use by the client.

VSD SKIDS

We start with your design or drawing concept. You can articulate verbally what type of oil field skid you seek or you can bring our design on your CAD or computer file. It does not matter as our experienced staff will work up a first draft of drawings for you to review.

Our Oilfield skids satisfy all standards and requirements pertaining to transportability, design and structural integrity and ease of use by oil field workers. Safety is engineered in the construction of all of our oil field skids. Our skids are designed to bear the weight load that is required. Our engineering team ensures that all designs submitted to our office are sound and can be easily installed or operated by a crane if need be.

VSD SKIDS WITH INSTALLATION, COMPLETE ELECTRICAL WIRING AND TERMINATION OF STEP UP, STEP DOWN TRANSFORMERS

F.CO HAS MANUFACTURE OVER 200 VSD/ TRANSFORMER SKIDS OF VARIOUS CLIENT (BP , ENI , NOVOMET , BHI , CNOOC , LUKOIL....ETC) , WITH DIFFERENT DIMENSION, SIZES AND INPUT AS PER THE REQUIREMENT FOR EACH CLIENT

LIFE SUPPORT SERVICES

F.Co. has a strong decade-long experience of setting up and managing economical and dependable temporary housing, providing catering, transportation, and logistical solutions. Our products and services fit our client's requirement, budget, and time line.

Our life support services are catered to meet large crew requirements in remote areas, our facilities are setup with a focus on hygiene and cleanliness as well as featuring fueling, water supply, wastewater management, and maintenance facilities for our prestigious clients.

LIFESUPPORT SERVICE CAMP IN HALFAIA FOR OILSERV

LIFE SUPPORT SERVICES

Accommodation – In the past ten years, F Co. has established relationships and the experience to arrange fixed, movable as well as tent-based accommodation, which meets our client's expectations as well as international standards.

Dining – Within the last few years, F Co. Group has provided hygienic and wholesome dining facilities to over 5,000 staff. The company believes in establishing kitchens and dining facilities. The facility includes site construction, Kitchen construction, installation of equipment and dining area setup, and is followed by operational maintenance regulations. F Co. Group has exceeded international standards on Health and Hygiene. It is matter of pride that we Have had zero incidence of any contamination or breach of health and hygiene regulations.

Cleaning – Our effective, efficient, and proficient cleaning resources deliver quality cleaning services to maximize the satisfaction of our clients.

- Janitorial services – including all types of cleaning (on commercial buildings and housing facilities)
- Solid waste handling
- Other waste services which include vacuum tankers
- High pressure wash & steam cleaning

Laundry Services – Our laundry facilities are equipped with high performance machinery and staffed with efficient operators and a maintenance team to ensure operations. Our successful on-site laundry operation has so far provided services to over 6,000 workers. All the equipment purchased is regularly maintained per our maintenance plan and spare parts are kept and replenished as needed.

Medical – Our Life Support's important element is providing suitable medical assistance to all clients' worker. F Co. employs practicing doctors, technicians and nurses who manage these clinics on our sites. Our ability to provide medicine and injections is proven, and are met with the highest medical standards.

STEEL WORKSHOP

F.Co. has a team of highly qualified engineering experts. Engineers, technicians and technologists work together in production design and follow-up to meet the client's specific requirements. They also make use of advanced design and industrial design software (Auto CAD, Inventor and Solid Works), as well as specialized project management software. Our team of welding and mechanical assembly experts is particularly recognized for its great precision work in the production of cylindrical rotating equipment used in heavy industry. Our company has always worked toward refining its work methods and it did not take long for it to become a recognized supplier in the mining industry. Today, we are proud to serve clients across

F.Co. Services boasts a state-of-the-art fabrication and welding workshop. Our team of more than 30 experts, including welders, assemblers, technicians and engineers, holds the highest levels of certification required for the repair and rehabilitation of specialized units. From simple steel to exotic alloys, custom projects with low repetition to full reverse engineering, no challenge is too complex. Thanks to our manufacturing and welding workshop, F.Co. Services has everything needed for work on large industrial sites. F.Co. Group Has conducted more than 100 projects between steel structure and warehouses from 2006 till now , and the most important project of the was the Battalion which was conducted under 3 months .

CONSTRUCTION

CONSTRUCTION AND CIVIL WORK

F.Co. is proud of its ability and expertise in design, construction, and maintenance of civil works like roads & highways, buildings, site preparation and pipeline installments. Our civil engineers have the ability and the experience needed to perform the civil work needed for the construction of all power plants such as machines foundations, Industrial buildings switch yard foundations, cable trenches, steel structures, concrete water tanks, sheds, and housing.

Our expertise isn't limited to labor and workmanship, our staff harbors specialty in planning and scheduling of infrastructure projects, Project plans are developed for use by the client, Project manager and the project management team. Planning requirements for complex projects can be very diverse. We are committed to satisfy our clients & also focusing on long-term relationship. We are a dynamic, rapidly growing company striving to dedicate its efforts to design innovation & functional integrity for storage tanks. Our civil work involves the formation of a team responsible for working with customers to identify needs, analyze and create strategies and solutions, and provide resources for implementation.

MAINTENANCE

SERVICES

OUR MAINTENANCE SERVICES INCLUDE:

- Day-to-day operation and inspection
- Weekly testing
- Monthly testing/inspection
- Quarterly testing
- Semi-annual service and testing
- Annual service
- IT and Administrative Support
- Total responsibility management
- 24-hour call outs and emergency support services
- System modifications and extensions
- System inspections and design audits
- Training services for all systems under our product range
- Refilling of portable Fire Extinguishers as well as Gas-based Fire Suppression Systems
- In addition, we provide system inspections, audits and confidential status reports.

MAINTENANCE SERVICES

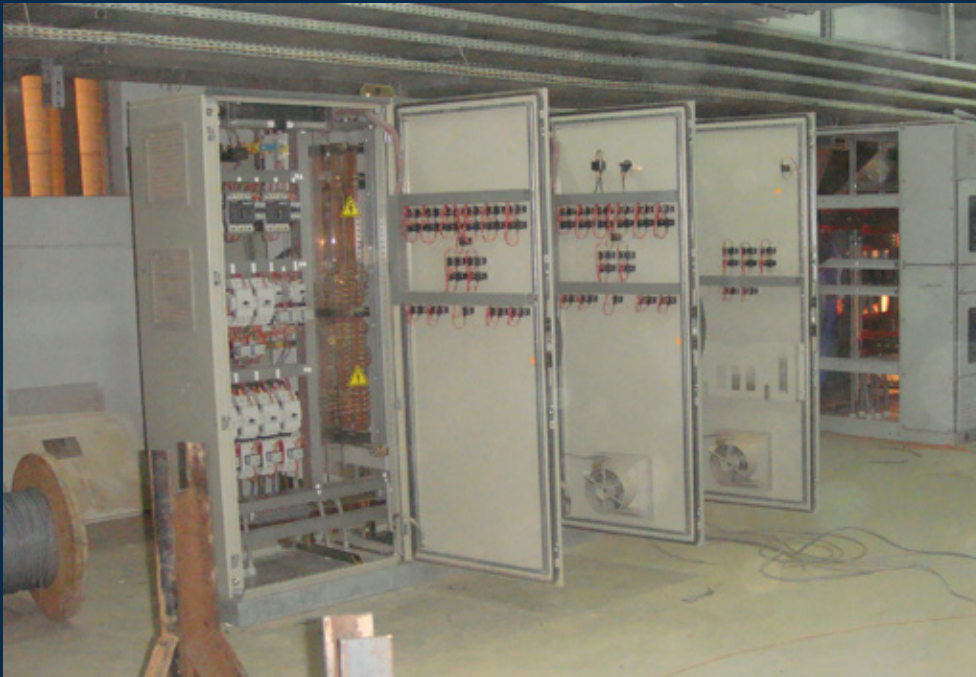

For over a decade, F Co. Group has worked to become a leader in providing cost-effective contract maintenance services to our Industrial clients. Our continuous contracts industry leaders in Iraq, UAE, and Jordan are an indication of our value in the Industrial sector. Our experience with contract maintenance has given us the expertise to help reduce your annual cost without sacrificing safety or quality.

Operating, maintaining, and servicing your facilities and critical systems is more than just interior or exterior upkeep – it's about helping your image shine. We apply this thinking to everything from janitorial maintenance and water damage restoration to landscape services, snow & ice removal, and HVAC services.

In our market sectors, where competition is driven primarily by cost, facility and plant maintenance is a required service. Contract maintenance is the most cost-effective and reliable approach to ensuring a plant's operation. Our highly experienced workforce, consisting of extensively trained and experienced management, assures excellence, control, and accountability. Whether your needs revolve around full time or periodic contract maintenance, F Co. Group is your single source provider for all plant maintenance requirements.

Service teams at F Co. Group provide routine planned maintenance as well as urgent repairs. We also specialize in providing teams of Engineers who are able to carry out modifications or extensions to existing systems at short notice.

Formal maintenance contracts are tailored to meet individual needs that may range from an annual service visit to permanently manned sites. Service agreements cover all types of fixed Fire Protection and Detection Systems including Hand Extinguishers and Hose Reels.

ELECTRIC WORK

Our team consists of highly skilled engineers and technicians with exceptional experience in most aspects of power system plants and electrical grids, starting from cabling and panel installation ending to the supervision and management of whole power plants and substations.

Hadeetha Diesel Power Plant (2009-2014)
